January 2010

Dear Student,

This book has been prepared as a reference for you during the registration process. All courses offered at Holmdel High School are listed along with their descriptions, credit value, length, and prerequisites. Important information and guidelines for planning your 2010-2011 school year are also included.

Upon making course choices for next year, it is essential that you consider your strengths, your past academic achievement, your interests, and your post-high school goals.

Please understand that you are not expected to make such significant decisions without assistance. Your parents, teachers, and school counselor will provide you with the support necessary to make course selections that will guide you through your high school educational experience. Please take the time to seek advice from these people. Each of them has a great interest in you and your success.

During February and March of 2010, the specifics about the registration process for 2010-2011 will be explained to all of you. You will have the opportunity to meet with your counselor who will explain the procedures necessary to ensure that each of you is scheduled properly. Abiding by this process and making timely and thoughtful decisions will ensure that you receive the best academic program for you!

The decisions you make as you engage in the scheduling process will directly impact your high school career and beyond. We cannot emphasize enough the importance of sharing this first step with your parents. Please know that we are here to assist you.

Sincerely,

William Loughran, Principal

Eric Swensen, Director of School Counseling Services
