

Summer Reading is Critical...

not only for helping kids maintain learning while school is out, but also for fostering social-emotional development, discovering the joy of stories, and elevating the importance of lifelong learning.

The following infographic is provided by Scholastic EDUBlog and presents research on the benefits of summer reading. It also includes [The Scholastic Teacher & Principal School Report](#) series which showcases the views and experiences of Pre-K–12 educators on critical issues affecting schools and districts across the country. With two national surveys, Scholastic has explored topics including equity in education, literacy, family and community engagement, social-emotional learning, professional learning, and more, with a special look at factors from both inside and outside of the classroom.

[The Summer Reading Imperative](#)

Summer reading assignments and resources for grades K-6 are posted on the [Village and Indian Hill School](#) websites. We have also provided parents and students with additional resources to promote summer reading and activities for students to enhance achievement. You will find some below as well. The [Humanities](#) website also includes summer assignments for AP courses in addition to the summer reading assignments for W.R. Satz Middle School and Holmdel High School. We wish you a wonderful and relaxing summer. We hope that you and your children are refreshed and renewed for an even more successful school year in September.

Best Wishes,

Janine Arciero
