$2022 \cdot 2023$

## TODAY'S OBJECTIVES

By the end of presentation, the community will have:

- An understanding of district performance on Advanced Placement Exams, the NJSLA, WIDA ACCESS for ELs, and Dynamic Learning Maps
- An inventory of practices the district has pursued/is pursuing in reference to data results.

2022 - 2023

## NJSLA - PERFORMANCE LEVELS

- In May 2023 students took the New Jersey Student Learning Assessments.
- The NJSLA for English Language Arts and Literacy is administered to all students in grades 3-9.
- The NJSLA for Mathematics is administered to all students in grades $3-8$ and End of Course Assessments in Algebra I, Geometry, and Algebra II.
- The NJSLA for Science is administered to all students in grades 5, 8, and 11.
- Level 1: Not yet meeting grade-level expectations
- Level 2: Partially meeting grade-level expectations
- Level 3: Approaching grade-level expectations
- Level 4: Meeting grade-level expectations Cut Score: 750
- Level 5: Exceeding grade-level expectations

## SUMMARY DATA

## SCIENCE

THE OFFICE OF CURRICULUM AND INSTRUCTION

## NJSLA SCIENCE

- The New Jersey Student Learning Assessment for Science (NJSLA-S) replaces the New Jersey Assessment of Skills and Knowledge (NJ ASK).
- This new assessment measures student proficiency in science according to the New Jersey Student Learning Standards (Next Gen).
- New standards emphasize science and engineering practices, making sense of phenomena, designing solutions to problems.
- The NJSLA-S is administered to students in grades 5, 8, and 11.
- In 2019, operational testing and standard setting by the NJDOE staff took place, making 2022 the first administration in which results on the NJSLA-S are used for district accountability (QSAC).

Only 4 performance levels

- Level 1: Minimal grade-level understanding Score Range: 650-699
- Level 2: Limited grade-level understanding Score Range: 700-724
- Level 3: Appropriate grade-level understanding Score Range: 725-749
- Level 4: Advanced Understanding Score Range: 750-800

## DYNAMIC LEARNING MAPS

- The DLM is an alternate assessment to the NJSLA for students with the most significant intellectual disabilities. The assessment is adaptive and questions are presented based on the student's previous response.
- Students took the DLM for English Language Arts and Literacy Assessments and Math in grades 3-11.
- Students took the DLM for Science grades 5, 8, and 11 .
- During the 2022-2023 school year, 14 students with special needs who are educated in district participated in the assessments.

## ACHIEVEMENT LEVELS

Emerging: The student demonstrates emerging understanding of and ability to apply content knowledge and skills represented by the Essential Elements.

Approaching the Target: The student's understanding of and ability to apply targeted content knowledge and skills represented by the Essential Elements is approaching the target.

At Target: The student's understanding of and ability to apply content knowledge and skills represented by the Essential Elements at target.

Advanced: The student demonstrates advanced understanding of and ability to apply targeted content knowledge and skills represented by the Essential Elements.

## ABOUT THE AP EXAMS

AP Exams are standardized exams designed to measure how well a student has mastered the content and skills of a specific AP course. Most AP courses have a traditional end of course exam, but a few courses have different ways to assess what a student has learned-for example, AP Art and Design students submit a portfolio of work for scoring.

An AP score is a weighted combination of your scores on the multiple-choice section and on the free-response section. The final score is reported on a 5-point scale as follows:

5 = extremely well qualified
4 = well qualified
3 = qualified
2 = possibly qualified
1 = no recommendation

Many colleges and universities grant credit and placement for scores of 3, 4 or 5; however, each college decides which scores it will accept.

## SUMMARY OF FINDINGS

- AP Participation increased from 318 students in 2022 to 349 in 2023, marking a 2\% increase; however the percentage of students passing one exam declined 4\%
- $\quad$ The district outperformed the state in 11/27 tested areas.
- The percentage of students scoring 3+ increased from 78\% to 80\%, however quality adjusted participation rate (metric used for rankings) decreased nearly 2\%.
- Largest gains in mean score average observed in Chemistry, Bio, Calc BC, Computer Science Principles, Physics, Language \& Composition, Art History, Macroeconomics, Psychology, US History, Chinese, and Italian.
- Most significant mean score declines in Calc AB, Literature, Microeconomics, and US government.
- World Language remain an area to target.

## AP PROGRAMMING RECOMMENDATIONS

- Increase percentage of AP students to boost state rankings and provide more students access to college-level courses.
- Continue to research impetus for AP test-enrollment and participation; reimbursement vs. GPA boost and adjust grade scales, if deemed appropriate, accordingly.
- Purchase Albert IO for AP preparation (piloted in spring '23).
- Content supervisors should analyze instructions planning reports provided by CollegeBoard to support teachers in domain analysis for each sub-section of the exam. Identifying trends may support teachers in improving instructional practice.
- Enroll teachers new to AP in summer institutes.
- District Goal - Increased AP proficiency
- Conduct "AP Fair" to highlight course offerings.
