

To: Holmdel Township Board of Education

From: Chair, Building, Grounds, & Safety Committee

RE: August 24, 2015 Notes

Attending: Mr. Sockol (chair), Mr. Hammer, Ms. Kline, Mr. Petrizzo, Mr. Scala, Ms. Duncan.

The Building, Grounds, & Safety Committee met on August 24 to discuss the following matters:

1. The administration completed an extensive review this summer of those cul-de-sacs that currently receive bus services. The district identified 27 of 90 cul-de-sacs that need to continue to receive bus service for safety reasons. By reducing the number of cul-de-sacs, the administration believes it will be able to reduce run times, an issue earlier raised by residents. The district also met its goal to complete school routes two weeks before the start of school. All bus route information has been loaded into the parent portal.
2. The committee recommends that the District hire a SRO if the budget allows.
3. The committee recommends the hiring of an engineer to review the Energy Saving Incentive Plan before it is brought before the Board of Public Utilities.

The next meeting of the Building, Grounds, & Safety Committee will take place on September 25 at 12:30 in the central office.

Sincerely,

Mike Sockol
Chairman, Building, Grounds and Safety Committee
