

Buildings & Grounds Committee Notes
December 3, 2008

Present: Frank Luccarelli, Robin Wetmore, Mike Collins, Jim Shelton, Barbara Duncan, Michael Petrizzo, Bill Balicki

1. Village School Play Pavilion: The sub base has been installed. Pouring of the topcoat will begin tomorrow. Planning has begun for the “Grand Opening”.

2. Non Public Transportation Issues: We currently have six non-public school bus runs. This year we did not have any bids for these routes which made it necessary to shift Holmdel drivers to the non-public routes and bid out Holmdel routes. Most if not all of the transportation issues occurring this school year are related to the non-public school bus runs. We currently have approximately 200 students in 7 non-public schools that are scheduled to ride buses throughout Holmdel. The number of students who actually ride the buses varies widely from day to day. Parents of students who attend other non-public schools receive “aid in lieu” in the amount of \$884 per student. Districts are required to provide either transportation or “aid in lieu”, Holmdel has traditionally provided both.

3. Holmdel Stallions Soccer Club letter – The committee discussed a letter sent by the Stallions regarding facility usage.

4. Roggy Field Update – Concession Stand: Bill Balicki and Randy Westrol will be meeting with Booster president Jim Murtaugh next week to discuss the renovation of the concession stand.

5. Other matters: The committee discussed the possibility of limiting the usage of the wood gym floors (particularly the high school main gym and Indian Hill main gym) to basketball. Bill will discuss this further with Randy Westrol and Michael Petrizzo.

Next meeting: January 7,2009 5:00pm (note change in time)

Respectfully submitted,
Robin Wetmore
