At the C&I meeting, Denise Kline posed a question about a modified summer reading program for our special services students. Special Ed teachers typically provide the students with summer packets and provide parents with titles in a private conversation. Marilyn Bellis can add additional strategies to the recommended summer reading list for parents to work with their children. Further discussion centered around sending out a highlighted websites for additional books.

Ice Cream Truck for the kids - Martinez Family

Meryl reminded the committee that a motion to establish a Language/Learning Disabilities would be on the May 25th Board agenda.

May 18th, Parent Night, the meeting went over extremely well. 30 parents and several teachers were there. The presenters were wonderful and the parents loved the interaction throughout the presentation. After surveying the parents, it was quite clear this was a successful evening and parents asked if there would be anymore prior to the close of school year.

Preschool - 15 deposits. 4 year olds 16 total
Preschool 8 deposits 3 year old

Consultants:

Consultants for 2016-2017 school year will be approved at the June meeting. Meryl Gill went over the list line by line describing each consultants function within the district. All of the consultants that work in district have not asked for increases. We did have one consultant fee go up but it is below the market. The district keeps these consultants based on the feedback from the case managers and parents.

ESY Update:

The ESY staff is on the May 25th agenda. Currently they are 80 students in the program.

As part of the Smart Goals:

CST Team members developed some wonderful informational pamphlet materials and options. A draft review of material will be handed out to parents. Meryl Gill provided a rough draft of the materials.

Next Committee meeting is June 13th.
