1. [NJQSAC](#)

- CR Committee reviewed the Governance section of the NJQSAC requirements to determine compliance. The BoE and Administration according to this review complied fully with all of the requirements for this section. The Administration will compile examples and reference documentation to show proof that we have complied.

2. [District Goals](#)

- The CR committee discussed the District Goals and made slight changes to Goal number 3 to tie it a little closer to the Career Concentrations. The CR Committee recommends the BoE proceed with these goals.

HOLMDEL TOWNSHIP SCHOOLS

- The methodology changed slightly between 2016 and 2018. The administration was surprised by the large drop but had not had a time to analyze it yet.
- CR Committee recommended that Vickie Flynn send an email to NJ Monthly to:
 - Understand the change in methodology
 - Reasons for the change
 - Specific details about why HHS decreased and what areas of weighting affected us
- 4. Athletics Hall of Fame
 - Lori Ammirati suggested that we look into having a Hall of Fame for the various athletes over the years as part of the new construction. She has seen other High Schools and it creates a source of pride in the students. It also brings back Alumni and perhaps donations to the school.
 - The CR Committee unanimously agreed and Dr. McGarry said he would have Mr. Fallon look into it.
- 5. Tennis Court Concerns
 - The tennis courts are going to be replaced very soon and as part of the cost savings initiative, the materials from the old tennis courts will be used to make the new ones. Therefore, the tennis team will have to practice at a different facility.
 - Shane Fallon is working on the arrangements.
- 6. S-4 Busing Issue
 - There were emails sent to the board concerning the S-4 Bus which the transportation team rapidly addressed and resolved.
- 7. Board Meeting Standard Language
 - Dr. McGarry is reviewing the new proposed language with Board Leadership and will get back to the CR Committee and rest of the board with an update.
